Profile

My career didn't start in code: it started in editorial design and institutional museography, where a poorly resolved visual hierarchy shows immediately. That criterion —grid, typography, message clarity— is what I apply to digital interfaces today.

Over more than a decade I've led the full design-to-code cycle for clients in Chile and the United States: design systems, high-fidelity prototyping and custom web development. More recently I extended that scope to my own full-stack platforms, using AI as a development copilot: I define the architecture, the data model and the product decisions, and accelerate implementation in stacks outside my core specialization without giving up that judgment.

Available to join remote full-time teams, one-off technical consulting or strategic freelance collaborations globally.

Experience

UX/UI Designer & Web Developer

2019 — Present

[Agencia La Vitamina](#) · [Viña del Mar, Chile](#)

I lead the full design-to-code cycle for a diversified portfolio of web projects (custom WordPress, Bootstrap 5, Tailwind CSS), serving clients in Chile and the United States. I design and prototype high-fidelity interfaces in Figma and Adobe XD, establishing reusable design systems.

Graphic Designer

2014 — 2025

[Museography & Outreach](#) — [Viña del Mar City Council](#)

I directed the full visual identity of large-scale exhibitions at the Palacio Vergara Museum, coordinating physical museography and editorial catalogs. The explicit foundation of my current UX/UI approach: typographic hierarchy and editorial composition applied to high-demand institutional projects.

Design & Communications Lecturer

2020 — 2021

[INACAP](#) · [Valparaíso Campus](#)

I designed and taught courses on design methodologies and layout technologies, training new generations in the technical translation of design into interactive media.

Tools & technologies

UX/UI Design & Product

Design Systems · Information Architecture · Prototyping ·
Figma · Adobe XD

Front-end Development

HTML5/CSS3 · JavaScript · Bootstrap 5 · Tailwind CSS

SEO & Performance

SEO On-Page · Local SEO · Schema.org

AI as Development Copilot

Claude · Gemini · AI Pair Programming · AI-Augmented
Engineering

CMS, Backend & Platforms

WordPress Core · ACF/SCF · PHP · MySQL · NestJS · Prisma ·
PostgreSQL · Next.js

Graphic & Editorial Design

Illustrator · Photoshop · InDesign

Education

2009 — 2014

Degree in Editorial Design

[INACAP](#) · [Valparaíso Campus](#)

2017 — 2018

Degree in Web & Mobile Design

[INACAP](#) · [Valparaíso Campus](#)
